## ITP T-9 PRO SERIES WHEELS

### ITP T-9 PRO SERIES .190 PRO-MOD ALUMINUM WHEELS

- Head-turning polished finish
- Double-rolled lip for excellent durability and ease of tire mounting
- Rugged yet lightweight .190 wall construction
- Classic offroad modular style and an angled outer wheel face
- Unique design adds considerable strength to the wheel center without a weight penalty

	Size	Offset	Bolt Pattern	Finish	P/N	Retail	Lug Nut	Retail

### ITP T-9 PRO SERIES .190 GP ALUMINUM WHEELS

- Integral rolled edge wheels
- Super strong yet lightweight
- Improves on the original T-9 Pro-Series wheel with a double-roll lip for even greater durability and resistance to rough terrain damage
- Remains very light in weight
- Rolled lip edge greatly eases tire mounting
- Features a tapered, stainless steel lug nut insert on sizes using the 4/110 and 4/144 bolt patterns. This allows for a more true and secure fit on O.E.M. wheel hubs that used tapered lug nuts
- Available for most popular ATV models, at a very attractive price

### ITP T-9 PRO SERIES .190 BAJA ALUMINUM WHEELS

- Inner and outer reinforcing rings that are rolled in, not welded
- Highly precise fit and rolling process eliminates welding
- Built to the same exacting specifications of the T-9 Pro series wheels
- Amazingly light
- Extremely high level of strength

**ITP T-9 PRO SERIES .190 PRO-LOCK ALUMINUM WHEELS**

- Ultimate pro-level racing beadlock is lighter, stronger and better looking than anything on the market today
- Tough .190 wall construction
- Front Pro-Lock wheel utilizes our GP integral rolled edge instead of the heavy welded design which is lighter and provides more front end component clearance
- Rear Pro-Lock uses new outer ring as well as a Baja-style rolled-in reinforcement ring on the inner side
- Popular lug patterns, 4/110, features tapered lug holes for a more true and secure fit on O.E.M. wheel hubs that use tapered lug nuts

ITP SS108/SS112 ALLOY ALUMINUM WHEELS

- Proven in testing to be the strongest, lightest and best looking 1-piece aluminum wheels on the market today
- Built using ITP's exclusive Advancecast process to exacting QS 9000 quality specifications
- SS112 use a bright, diamond-cut machined finish with black accents topped with a tough clear-coat. The SS112 also comes in show-quality chrome. The SS108 is available in either a machined finish with black accents (topped with a clear coat), or in a dramatic matte black finish
- Heavy-duty 12" ATV wheel rated at 650 lbs, 14" side-by-side UTV applications rated at 700 lbs.
- Manufacturer's lifetime structural warranty. If you bend or break it, we will replace it, buy with confidence
- Custom SS wheel cap is included

SS312 Machined w/Matte Black

**ITP SS312 ALLOY ALUMINUM WHEELS**

- Joins the proven SS Alloy line as one of the strongest, lightest and best looking 1-piece aluminum wheels on the market today
- Features a stealthy matte black finish with bright, diamond-cut machined accents topped with a tough clear-coat
- Heavy-duty 12" ATV wheel rated at 700 lbs., 14" side-by-side UTV applications rated at 800 lbs.
- Manufacturer's lifetime structural warranty! If you bend or break it, ITP will replace it! Buy with confidence
- Built using ITP's exclusive Advancecast process to exacting QS 9000 quality specifications
- Custom SS wheel cap featuring an all-new design is included

**ITP SYSTEM SIX ALLOY ALUMINUM WHEELS**

- Another industry first!
- The ultimate in customization!
- Interchangeable colored aluminum wheel spoke inserts (in red, blue or polished) provide a vast array of customization possibilities. Match your wheel specifically to your ATV or UTV! Optional inserts sold separately
- Wheel inserts can also be customized by applying graphics, paint, decals, wraps, etc., for a truly one-of-a-kind look! Raw/blank inserts sold separately.
- Available in 2 finishes: a bright, diamond-cut machined finish with black accents topped with a tough clear-coat, and in a dramatic matte black. This opens up even more customization choices!
- Proven in testing to be the strongest, lightest and best looking 1-piece aluminum wheels on the market today
- Built using ITP's exclusive Advancecast process to exacting QS 9000 quality specifications
- Strong, light and distinctively different
- Manufacturer's lifetime structural warranty! If you bend or break it, ITP will replace it! Buy with confidence
- Custom SS wheel cap is included

# ITP C-SERIES TYPE 7 BEADLOCK WHEELS & RINGS

## ITP C-SERIES TYPE 7 BEADLOCK WHEELS

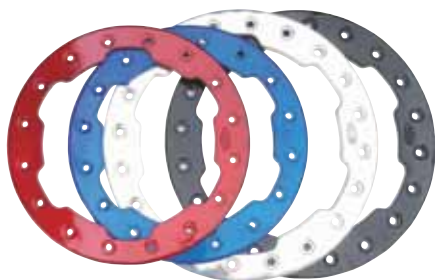

- Combines all of the best technology and performance of the proven C-Series Type 7 1-piece aluminum wheel with all the benefits of a beadlock design
- Uses a billet outer ring that clamps the tire to the wheel, greatly reducing the risk of the tire debanding from the wheel when using lower tire pressure or when the tire is subjected to heavy side loads
- Ring also strengthens a wheel that's already known for its rugged durability
- Meets rigorous QS 9000 quality specifications
- Comes standard with a polished ring, but also available in black, blue or red powder-coated finish for enthusiasts interested in a custom look

**ITP DELTA STEEL WHEELS**

- All 12x7 size
- Wheel design features a lighter weight D-window center design
- Features precision rolled rims with stamped high strength centers; 35% stronger than O.E.M. wheels
- Rich powder-coated black finish
- Adds to the Delta Steel Wheel selection: Silver powder-coated (much tougher and more corrosion-resistant than standard paint)
- Check out the cost savings compared to O.E.M. wheels - ITP is the clear leader
- Provides a wide range of O.E.M. replacement options for all popular models in the utility 4x4 category

### HOW TO READ WHEEL SIZING SPECIFICATIONS:

For example, the wheel is sized:

**8x8, 3+5 4 / 110**

1      2      3      4      5

### ITP WHEELS

1. The diameter of the wheel; also the inside diameter of the tire. Use an 8" wheel with an 8" tire.
2. The width of the wheel.
3. Most wheels are centered, with no offset. An offset is indicated as, for example, 3+5, meaning 3" offset from the inside and 5" offset from the outside.
4. Number of bolt holes in the wheel.
5. Spacing of bolt holes (usually in millimeters), measured from center of hole across center of wheel to center of opposite bolt hole.

WHEELS

**HiPer RACING WHEELS  
14" DAKAR 2 WHEELS**

- All new center section design
- Contemporary black powder-coat with machined accents design
- Center is inserted from the outside of the wheel, which makes the wheel look 1" larger without the higher weight of the larger wheel
- Steel bolts and inserts replaces aluminum
- New anti-seize, anti-rust coating on all hardware
- In testing the upper limits of the load rating, the wheel broke the Department of Transportation lab's testing equipment
- Centers sourced from automotive Tier 1 supplier, ISO certified production
- Bead rings and O-ring seals are interchangeable with other HiPer 14" wheels
- All wheels come with black bead rings, additional colors sold separately
- Honda, Yamaha, Kawasaki and Can-Am centers have integrated, aluminum hub cap

## HiPer RACING WHEELS 12" SIDEWINDER 2 WHEELS

- All new center section design
- Contemporary black powder-coat with machined accents design
- Center is inserted from the outside of the wheel, which makes the wheel look 1" larger without the higher weight of the larger wheel
- Steel bolts and inserts replaces aluminum
- New anti-seize, anti-rust coating on all hardware
- In testing the upper limits of the load rating, the wheel broke the Department of Transportation lab's testing equipment
- Centers sourced from automotive Tier 1 supplier, ISO certified production
- Bead rings and O-ring seals are interchangeable with other HiPer 12" wheels
- All wheels come with black bead rings, additional colors sold separately
- Honda, Yamaha, Kawasaki and Can-Am centers have integrated, aluminum hub cap

**DWT® G2 CHAMPION IN A BOX**

- Includes:
- 2 Ultimate Rok-Out wheels
  - 2 Ultimate G2 wheels
  - 2 mud covers
  - Official DWT hat

**Keep the rocks out!** You'll have no trouble keeping rocks out with DWT's rock guard wheel. Never seen before technology, as you expect from DWT.

**Awesome Rok-Out Features:**

- Lighter than original Ultimate wheels
- Adds style without losing protection
- Universal built-in Rock Guard - works with all stock front hubs and most aftermarket hubs
- Stops outside debris from entering, preventing damage to brake lines, caliper and wheel
- Eliminates stock O.E.M. steel, rock-guard plates for further convenience and weight reduction
- Integral Rock Guard stiffens the wheel center

**G2 - The Industry Standard Beadlock Just Got Better!** After a year of harsh intercontinental testing, this wheel has proven to be the BEST EVER!

**Awesome G2 Features:**

- Lighter than original Ultimate wheels
- Deep drop center
- Attached nut plate improvement
- Improved fatigue resistance with its shot-peened wheel ring
- Durable, black powder-coated wheel finish
- Secure hub to wheel interface with its bare mounting surface

**Description**

**Fits KTM & POLARIS**

G2

G2 Jr

Rok-Out

Rok 'N Lock

**DWT®  
ULTIMATE G2**

- Lighter than original Ultimate wheels
- Deep drop center
- Attached nut plate improvement
- Improved fatigue resistance with its shot-peened wheel ring
- Durable, black powder-coated wheel finish
- Secure hub to wheel interface with its bare mounting surface

**DWT®  
ROK-OUT & ROK 'N LOCK WHEELS**

- Lighter than original Ultimate wheels
- Adds style without losing protection
- Universal built-in Rock Guard - works with all stock front hubs and most aftermarket hubs
- Stops outside debris from entering, preventing damage to brake lines, caliper and wheel
- Eliminates stock O.E.M. steel, rock-guard plates for further convenience and weight reduction
- Integral Rock Guard stiffens the wheel center
- Rok-Out design is patented by DWT®

**DWT® DRIFT TRUE BEADLOCK WHEEL**

DWT's cast aluminum beadlock wheel design. Its aggressive styling has never been seen before in a true beadlock wheel. The tire won't dismount, no matter how low the pressure. The Drift is great for sand, trail, desert and track. Its zero cavity, self-cleaning design won't trap sand or mud. Its unique design keeps cost and weight low. Interchangeable billet or cast bead ring

- Available in all popular bolt patterns listed
- Center cap included
- Lug nuts sold separately

**DURABLU<sup>®</sup> WHEEL SPACERS**

**EZ Fit Spacers**

- Increases wheel clearance
- Exclusive urethane compound with titanium
- Does not require O.E.M. stud removal for installation
- Sold in pairs

**GL Spacers**

- Same as EZ Fit Spacer except the GL is not equipped with studs
- O.E.M. studs must be removed and included bolts used
- Bolt heads must be accessible for tightening
- Sold in pairs

NOTE: Graph-lite "EZ Fit" spacers do not require stud removal for installation. These must be used when access to the inside of the hub is limited. Use for superior fit and assembly. Graph-lite "GL" spacers require that the studs be removed from the hub for installation and long "through bolts" (supplied) inserted in the stud hole.

**QUADBOSS WHEEL SPACERS**

- Machined from aircraft grade billet aluminum
- Design is the strongest available for ATV/UTVs, comparable to automotive grade wheel adapters
- Extends wheel width for greater stability and increased safety
- Allows the installation of larger, aftermarket tires and prevents rubbing of shocks, struts or exhaust systems
- Includes 2 spacers and 8 lug nuts
