

## WARN® XT & RT WINCH SERIES

The XT Extreme Terrain and RT Rugged Terrain winches are designed specifically for powersports vehicles with standard features like weather resistant sealed construction; rugged and reliable 3-stage planetary geartrains; patent-pending disc brakes to prevent rollback; efficient electrical systems for less battery drain; easy-to-use clutch dials; and legendary Warn® quality. A limited manufacturer's lifetime warranty for every Warn® ATV and UTV winch and it's backed by a world-wide service organization.

### WARN® XT40 WINCH

- Extreme terrain winch for side-by-sides
- 50' (15m) of lightweight, easy-to-handle, 7/32" diameter synthetic rope
- Wireless control system for increased versatility when winching, plus a sealed mini-rocker control switch
- The most powerful pulling capacity in the WARN powersports lineup: 4000 lb. (1,814 kg.)
- Fully sealed drivetrain to keep the elements out
- All-metal, 3-stage planetary geartrain for smooth, reliable operation
- Patented disc brake enhances braking performance
- Reduced amp draw for longer pulls and less battery drain
- Easy-to-use clutch control dial
- Limited manufacturer's lifetime warranty

**37-4203 \$859.00**

### WARN® XT30 WINCH

- Extreme terrain winch for large-bore utility ATVs
- Wireless control system for increased versatility when winching, plus a sealed handlebar-mounted mini-rocker control switch
- 50' (15m) of lightweight, easy-to-handle 3/16" diameter (5mm diameter) synthetic rope
- Fully sealed to protect against the elements
- All-metal 3-stage planetary geartrain for smooth, reliable operation
- Patented disc brake will enhance braking control
- Reduced amp draw for longer pulls and less battery drain

### WARN® WINCH WIRELESS CONTROL SYSTEM

- Control your winch with no strings (or wires) attached
- Works with any Warn powersports winch with a Warn® contactor and mini-rocker control switch
- Operates your winch from anywhere within a 50' radius
- Wiring harness with built-in antenna and all necessary hardware allows for quick and easy installation
- Activation process and recessed buttons prevent accidental winch activation
- 2-color L.E.D. indicates when the system has powered on (green) and when the system has begun winching (red). Blinking red L.E.D. indicates low battery life
- System automatically powers off to conserve battery life
- Rugged, waterproof receiver ignores interference from other signals
- Ergonomically designed handheld remote has large buttons for easy use – even when wearing gloves
- Works at all vehicle voltage levels that allow winch operation
- All components are weatherproof
- Handlebar-mounted holster keeps the handheld remote at the ready
- Kit includes receiver, wiring harness, handlebar-mounted holster and mounting hardware

## WHY WOULD YOU WANT A MULTI-MOUNT?

Winch from the front or the rear of your ATV or UTV, or from vehicle to vehicle. The WARN Multi-Mount winch carrier fits into the front or rear receiver. To move the winch, simply unplug the Quick Connect power leads, pull the hitch pin, and plug the winch into its new location

- Mounts easily to the front or rear receiver hitch
- Power is supplied through the Quick Connect plug
- Winch is mounted to a steel carrier plate, which can be mounted front or rear
- The Multi-Mount winch for ATVs is designed to mount to front and rear 1-1/4" Class I receivers
- These mounting receivers are engineered for specific ATV makes/models and tie into the ATV frame for increased strength and reliability
